

## Lab 6: Evaluation

Name of Evaluated Students: \_\_\_\_\_ and \_\_\_\_\_

Name of Evaluator: \_\_\_\_\_

Labs 1-5 are each weighted equally. Lab 6 is weighted 1.5 times the previous labs.

### 1. Story Boards and Lab 6 Collaboration Form

- a) Was a draft of the story boards and collaboration form reviewed on Tuesday?
- b) Were final story boards and collaboration form turned in on Thursday?

### 2. Maya Organization: Are the project folder and scene files well organized? For example:

- a) Is there a single Maya project containing all of the scene files? Are scene files clearly named?
- b) Open up a scene file for one of the shots (i.e. one that contains animation keys)
  - i. Are the objects referenced or are they imported?
  - ii. Are the objects clearly named?

### 3. Animation:

- a) Framing and Staging: Is the camera placed in a way that makes the action clear?
- b) Animation: Comment on the quality of the animation – is it awkward or smooth, is there good gesture, is it convincing, does the timing work, etc.

### 4. Sound:

Discuss the interaction of the sound and animation. Eg. Describe the sound and how it is used. Do the sound and animation work together? How does the sound contribute to the story?
